The Robin Redbreast. *(Erithacus rubecula)*, one of the most popular of the native British birds, measures about 5¼ inches in length. It's keen black eyes and ruddy chest are characteristic, and make it easy recognisable. The nest, well constructed and lined, is often built in most extraordinary positions, and contains from five to seven eggs of a yellowish white tint spotted with brown.

I'm so sorry I have not written lately. I had a lovely time when I was staying with the Dowses It was half term last Monday and Tuesday yesterday we went down to the tennis club Nearly every one was there except the Rice They went to Boxmore It was the opening of the tennis club. Daddy played tennis with Dossie. McLauchlan and Nancy Hill won. Some of the school went up to the mission service. P. D and I went up it was awfully nice. Has Eve been made a fuss yet. With lots of love to Eve and Pommy. With best love from Jane.
